Song For Us

The Briggs

They say that I'm not worth
My weight in gold
I'm just another kid who's gonna do
Exactly what he's toldDriven mad by taking
A backseat to the world
But we'll gain control
'Cause we got our pride and convictionThis is a song for us, whoa
This is a song for us, whoa
This is a song for the ones who can't be heard
This is a song for usI can't be trusted
Now with anything
Well, I better watch my step
Not to forget who I'm supposed to beIf you had your way me
And mine would not be heard
But you'll never gonna succeed
In trying to silence the voice of the peopleThis is a song for us, whoa
This is a song for us, whoa
This is a song for the ones who can't be heard
This is a song for usThis is a song for us
This is a song for us
This is a song for the ones who can't be heard
This is a song for usThis is a song for us, whoa
This is a song for us, whoa
This is a song for the ones who can't be heard
This is a song for us
