The Features

I can't understand
I can't understand u
Rotten
Bleeding
Hoping
Twist your limb
Grow some more
Bleeding as your belly expands
Forgotten by the spirit windYou know that they're so boring
As rotten threw the star from his chest
Delicious
Oh I'm sinking fast
Oh suspicious
As I kneel to the floor
Your space needs exploring
Why'd u put that gun to your head?
Delicious
SuspiciousForget about all the hurt
Cream on all that u can
Forget about all the hate
Forget about all that is
RottenOrbit
No resistance
As my ego explodes
Crawl through a hole
Given another chance
NakedStarving to confess
That we're all snoring
Why'd U put the gun in my hand?Suspicious
I'm bleeding fast
Persistence
As I go through the soundCurtis blew the stars from his head
Persistence
I'm sinking fast
Persistence
As I go through the pastForget about all the hurt
Cream on all that u can
Forget about what it's worth
Forget about all the hate

Forget about why it hurts
Forget about all the hate
Forget about what u can't
Forget about what I sang
