

Something More

Eyeshine

Close your eyes for me
And tell me what you see
Together now we can find
A way to come alive

If you've fallen down
I will pull you out
No one can take apart
What's inside my heart

Feel inside my soul
Won't leave you on your own

When that day comes
I would trade if I could save just one
Apart we are nothing
Can we become something more?

Feel inside my soul
Won't leave you on your own

When that day comes
I would trade if I could save just one
Apart we are nothing
Can we become something more?

Something more, something more
Yeah, something more

Apart we are nothing
Can we become something more?

(Yeah)
