Acapulco

The Ambush

There's love in the air
Well, can you feel it now?
There's love in the air, and that's nice

You're learnin' a lot
About each other's ways
You're learnin' a lot, ain't that right?

You work like a dog to try and get it good
You work with your heart, every day
You know when you're through
You're gonna take your friend and get away

To Acapulco (to Acapulco)
That's where they'll find us
In sunny blue waters
Where the sand is warm and friendly

Hey Acapulco, (hey Acapulco)
I hear you softly calling
We're sailing around the horn of love
To Acapulco

It's good and it's bad
When things are going right
It's good and it's bad, when they swing
But you know that you're glad
You finally get it right
You know that you're glad, so you sing

But at seventy two, it's hard to get around
At seventy two, but not now
It's me and it's you and we can get around
'Cause we know how

In Acapulco, (in Acapulco)
That's where they'll find us
In sunny blue waters
Where the sand is warm and friendly

Hey Acapulco, (hey Acapulco)
I hear you softly calling
We're sailing around the horn of love
To Acapulco
We're sailing around the horn of love
To Acapulco
