Meet My Friend

Eddy Huntington

Meet my friend, he knows every little trick
Meet my friend called Dick (repeat twice)I've got friend
He's so much fun
And I know he's ready for action
He'd like to fire
And wake up your desire
He knows every way to
Make you really lose your mindWell hello, how do you do?
I'm really pleased, pleased to meet you (repeat twice)Just take your time
But don't be shy
Let yourself go with the attraction
I'm sure he'd like you and I'm sure you'd like him too
My friend wants to meet you
And you'll find the four of us
