

# What I Mean to You

**Justin Townes Earle**

Well, I call you every morning  
And bring you flowers to work, never stay out too late  
And I quit drinking, mama  
'Cause I know how it hurts you to see me in such an awful state  
But right now I just feel the need to see this  
through  
So I need to know right now just what I mean to you  
Now I don't need no riches, diamonds or gold  
No ordinary trinkets will do  
And I don't expect you to break out in song  
'Cause I know that you can't carry a tune  
So speak low when you speak love if that's what you gotta do  
I need to know right now just what I mean to you  
Now I don't ask for too much, now do I?  
So grant me this, don't turn away  
Look me in the eye and put me in my place  
'Cause I'm feeling that you're fooling around with my heart  
Oh, but I can't be sure  
Yeah, I feel like I'm stumbling around in the dark  
Meet danger 'round every turn  
So tell me right now 'cause it's the least you can do  
I need to know right now just what I mean to you  
Yeah, I need to know right now just what I mean to you
