

Prelude 3.0

Slipknot

I don't know why
I never told you
I don't know why
I never tried When we shed these bitter skins again All the reasons come to life
But now it's over
Now it's over
Now it's over
Now it's over I don't know why
You never asked me
And I don't know why
You never cared Went we hind these little sins again All the reasons
Have to die
But now it's over
Now it's over
And now it's over
And now it's over
And now it's over
And now it's over
And now it's over
And now it's over
And now it's over
No, no, no, no, no
