

# Atmosphere (Live in Chicago)

## Velvet Crush

I don't wanna sit and watch  
A good thing going down  
And I don't wanna wait  
Until I lose all that I've found You gotta tell me something  
You gotta tell me one more time  
Though we never talk about it  
This is how it is Come out and bring some atmosphere  
Cause I can hardly breathe in here  
Stay and change the space I'm in  
So I can start to feel it all again I don't wanna feel as if  
I'm missing half my life  
And I don't wanna wait  
Until forever to see you smile I gotta show you something  
I gotta show you one more time  
We don't need to talk about it  
We know how it is Come out and bring some atmosphere  
Cause I can hardly breathe the air  
And stay and change the space I'm in  
So I can start to feel it all again You gotta tell me something  
You gotta tell me one more time  
Though we never talk about it I don't wanna sit and watch  
A good thing going down  
And I don't wanna wait  
Until I lose all that I've found I gotta show you something  
I gotta show you something  
I gotta show you something  
I gotta show you one more time
