

Someday

Cracker

Someday, well I'll get it right
Yeah, one day I'll get it right
Someday, well I'll get it right
Yeah, one day I'll get it right And I had a dream last night
That I was feeling barely human
So save me a place in your parking lot
And save me a place beside you
When you lie down to sleep at night
Someday I'll get it right Someday, well I'll get it right
Yeah, one day I'll get it right
Someday, well I'll get it right
Yeah, one day I'll get it right And if you see the dark clouds
Gathering out on the horizon
Don't be alarmed, they're just there for me
Just save me a place beside you
When you lie down to sleep at night
Someday I'll get it right
