Confessions (Hearts Are Restless)

By The Tree

Start the engine lets go
We need to know
How do we get out of here
Cause its out of control
Then we fall down, we fall down
Around and round we go with this merry life
You asked me once, I told you twice
There's a difference between black and whiteYou have made us for yourself
And our hearts are restless till we rest in you
(x2)I was looking for it all
You came the wrong way
I was looking for it all
I looked the wrong wayThen I fall down, I fall down
You asked me once, I told you twice
There's a difference between wrong and right
