Fall

Something Corporate

I close my eyes
Thought I was lost but I was stranded
I go outside
To my surprise the sky had landed
I thought it made more sense
If I could only keep you guessing
I was a fool to think that
I should stop you from undressing
Now I'm believing all the words you say
That I can't take back to you
To you
And so I fall
I don't wanna feel this small
You know I just can't handle this
Handle this at all
And I'll just fall
I'll let my heartbeat drop
I falter as the music stops
And you watch me as I stall
And wonder when I fall
I kiss your neck
I feel you breathing on my shoulder
Still I'm perfect
It must be you 'cause now it's over
I was so close
That was the most that I have ever been through

Now old cassettes and cigarettes
Will be the ones to save you
How can you ask for me to stay
When all you ever do is go?
Just go
And so I fall
I don't wanna feel this small
You know I just can't handle this
Handle this at all
And so I fall
I let my heartbeat drop
I falter as the music stops

And you watch me as I stall
And wonder when I...
Go on
You've kept me waiting
Go on
And watch me as I fall
I don't wanna feel this small
You know I just can't handle this
Handle this at all
And so I'll fall
I'll let my heartbeat drop
I falter as the music stops
And you watch me as I stall
And wonder when I...
