We Got It

Immature

We got it
We got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
Thinkin' of you is all I do
Daydreamin' about my boo
Crazy days, I like your silly ways
Just thinkin' 'bout you what can I do
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I know our love is real
You make my mind do flips
It's funny how you make me feel
Toss and turnin' in my bed
My time is just for you
Twenty-four seven, our love is true
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
It's the mack of the year in your ear
With the flavor you've been waitin' for
A taste in your face, don't take it personal

Four deep, we gonna creep for the street
Smooth, Batman and Romeo and LDB
Throw your hands in the air
Put the bounce in your body
Microphone check now scream, "Ladi dadi"
Ain't no party like an Immature party
Give 'em props, 'cause you love what they got
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
I'm given you all my time
Just come and feel the flavor
Whether it's rain or shine
'Cause we got it
Don't you wanna feel the funk
What we got is what you want
Don't you wanna feel the funk
What we got is what you want
Don't you wanna feel the funk
