## **Gagging Order**

## Radiohead

I know what you're thinking But I'm not your property No matter what you say No matter what you sayMove along There's nothing left to see Just a body Nothing left to seeA couple more for breakfast A little more for tea Just to take the edge off Just to take the edge offMove along There's nothing left to see Just a body Pouring down the streetMove along There's nothing left to see Just a body Nothing left to seeMove along
