Paper Trails

Darkside

Better go and get.
Better inside.
Better go and get.
Here inside.I told you I would get you.
The back of the house.
I told you I would find you.
A place to go.Paper trails on a mountain.
And fruits on a table.
A wooden house to live in.
A baby; take care of.The grass is green but the.
The sun is slow.
Better find a way.
To get through to you.Where are you when I need you?
Where did you go?
How can I find you when I need you?
Where should I go?Paper trail on a mountain.
Better find a way.
A big trail on mountain.
You'll find a way.The fire outside.
Is burning up the place.
But you're inside.
Burning up ahead.Paper trails on a mountain.
And fruits on a table.
A wooden house to live in.
A baby; take care of.
