Blind Sight

Ryan Cabrera

Life, its crazy how some things never work out
I'm hopin' that this time goes right
'Cause I've tried so hard
To keep you hangin' on this life
But you always have to try and fightWell, I'm scared and I'm running
And I'm runnin' out of time
All this time
Always thought we were invincibleTime, it's gone so fast
And all it took was one night back
To crash it all into the ground
Now too gone deep
In a predictable last sceneI never thought it'd be you and me
So what do we do?
I tell you, I'm afraid just like you
But by the time we're done thinking, it's goneSo don't waste your life
Just look at me and remember the time
The time, my angel came to stay
And take me awayI'm scared and I'm runnin'
And I'm runnin' out of time
And all this time
Always thought we were invincible
Well I'm scared, and it's over and it's over
And will I have another time to live?So that day you drank away
All alone in some way
All thats left is me to blame
But I just want to wake up from this dreamWell I'm scared and I'm runnin'
And I'm runnin' out of time
And all this time
Always thought we were invincible
And I'm scared it's over, it's over
And will I have another time to live?
