

Vacation

Pepper

Take my number
Your shift is over
It's such a big world
So let me show ya
Anywhere that you want
The sun is always shinning for youPack your bags girl
Bring your bikini
I'd take you places
You've seen on TV
Anywhere that you want
The sun is always shinning for youAnd baby it's been way too long
And baby it's been way too long
And baby it's been way too long
You could use a vacationGoing on a vacation
We're going and we're gonna have fun
I say we go crazy
Until we get lazy round noon
How about you
'Cause baby it's been way too long
You could use a vacationTake your cloths off
Show me what's under
Lose those tan lines
I wanna show ya
Anywhere that you want
The sun is always shinning for youForget your high heels
You don't need no makeup
Just pick a spot girl
'Cause we could wake up
Anywhere that you want
The sun is always shinning for youAnd baby it's been way too long
And baby it's been way too long
And baby it's been way too long
You could use a vacationGoing on a vacation
We're going and we're gonna have fun
I say we go crazy
Until we get lazy round noon
How about you
'Cause baby it's been way too long
You could use a vacationLet's do the things we wanna do

I just wanna do it all We'll have fun fun fun
Under the big blue sky
And we can run run run
Until we get so high
I bet you know the time we could have's gonna feel so fine
Come with me And baby it's been way too long
And baby it's been way too long
And baby it's been way too long
You could use a vacation
