

Stand on My Throat

Night Beds

You know what it is,
you know where it goes,
stand on my throat
stand on my throat
stand on my...

Learn to love your nose,
evens out of bliss,
stand on my throat
stand on my throat
stand on my...

Calling in the night,
shiver don't you mind
stand on my throat
stand on my throat
stand on my...

Into the garden,
right where you started
In the back of your mind,
In the back of throat,
In the back of your cloud
you're all, I wanna go

Into the garden,
right where you started
In the back of your cloud,
you're all alone everyday
In the back of your throat,
I know you want my...

In the back of your throat,
I know I know I know me

Into the garden,
right where you started
In the back of your throat,
I know I know I know badly...

Are you awake?

You awake?

Into the garden,
right where you started
and all these things.

Are you awake?

Are you awake, amen.

Into the garden,
right where you started.
