

# Tidal Wave

Karmin

When dreams can't wait a flood of fate  
Is breaking over all that we know  
I know a place to go escape  
But lately I get lost on the road And I don't really know just how to say it  
We speak all day and never talk  
'Cause you and me were never complicated  
So how'd we end up on the rocks The tidal wave is forcing us to swim at a distance  
So our love is washing away  
With all the push and pull we're caught up in  
Can we brave the tidal wave Can we brave the tidal wave  
Can we brave the tidal wave  
Can we brave the tidal wave  
Can we brave the tidal wave I throw a line and every time  
I'm freaking out and sinking inside  
I hope we find a ground that's high  
Just know my love will never subside And I don't really know just how to say it  
We speak all day and never talk  
'Cause you and me were never complicated  
So how'd we end up on the rocks The tidal wave is forcing us to swim at a distance  
So our love is washing away  
With all the push and pull we're caught up in  
Can we brave the tidal wave Can we brave the tidal wave  
Can we brave the tidal wave  
Can we brave the tidal wave  
Can we brave The tidal wave is forcing us to swim at a distance  
So our love is washing away  
With all the push and pull we're caught up in  
Can we brave the tidal wave Can we brave the tidal wave  
Can we brave the tidal wave  
Can we brave the tidal wave  
Can we brave the tidal wave
