Top Down Summer

Eric Carmen

Wakin' up
And the sun is in my eyes
Temperature is rising
It's so hotShake it up
I go racing through the streets
Howling in the heat
And you know whyGirls in cars are driving through the city
Breaking hearts, but looking awful pretty
Baby, not so fast
Make the summer lastTop down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here
The top down time of the yearTake your Mustang off the blocks
Ain't nobody walks when it's so hotMe and you
We can ride to town in style
Flash 'em all a smile
And you know whatI'm so high whenever we're together
I wish we could feel this way forever
Love is weatherproof
C'mon raise the roofTop down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here
The top down time of the yearAre we close enough to touch
(Baby, let me show you how)
It's too hot to wear too much
(It's too late to turn back now)Top down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here
The top down time of the yearTop down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here

The top down time of the yearTop down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here
The top down time of the yearTop down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here
The top down time of the yearTop down summer
Are you ready for love?
Top down summer
We can drive to forever tonight
Hey baby, the right time's finally here
The top down time of the year
