

# Flamezesz

## Wavves

Flames, in my heart  
It puts fire in my mind  
And it's cold when you're gone  
And it leaves me behind  
Please don't believe what they say  
The lies  
Just put your trust in the ones  
You're alive Wasting all your time  
Wasting all your time  
Wasting all your time  
Wasting all your time It's suicidal hurt  
The way we walk around  
Dark creatures of the night  
And we'll take you under the rug  
So just stay far from the flames  
And thank God every day  
It's suicidal hurt  
The way you walk around Flames, in my heart  
It puts fire in my eyes  
It ignites in a blaze  
And it sends to the sky  
All these distractions that leave me blind  
Watch as they gently trip out of my mind Wasting all your time  
Wasting all your time  
Wasting all your time  
Wasting all your time It's suicidal hurt  
The way we walk around  
Dark creatures of the night  
And we'll take you under the rug  
So just stay far from the flames  
And thank God every day  
It's suicidal hurt  
The way you walk around  
The way you walk around  
The way you walk around  
The way you walk around
