

# Elevate

## Drake

[Chorus]

(Ayy)

Elevate, elevate

Only obligation is to tell it straight

So much on my plate I gotta delegate

Baka passed a drug test, we gotta celebrate

I'm in better weight, thinkin' how'd I make-[Post-Chorus]

All this happen for myself and my family

All this happen for myself and my family

There's no way that this is real, man, it can't be

(Yeah, yeah)

[Verse: Drake & French Montana]

If you need me, you can't call me

I stay busy makin' money

You know what is on my mind

All I think about is hunnids

I stay busy (bzz!) workin' on me

I stay busy with my business, homie

I already hit her when you left her lonely

She is not the type that likes to take things slowly

Slowly, my mouth is goin' off, I don't know patience

I got a chance, then my niggas got it too like it's contagious

I see the future when I get wavy (wavy God!)

But I couldn't picture bein' Champagne when I would buy that shit and save it for the right occasion

I couldn't picture changes when I was with Ms. Craten

That lady hates me

Couldn't picture wifin' Braden when I was pumpin' gas on road trips to go from Cincinnati on to Dayton

I couldn't gauge it

I wanna thank God for workin' way harder than Satan

He's playin' favorites, it feels amazin' (yeah)

[Chorus]

Elevate, elevate

Only obligation is to tell it straight

Me and all the guys found a better way

This for life, bih, we can never separate

I'm in better weight, thinkin' how'd I make-[Post-Chorus]

All this happen for myself and my family

All this happen for myself and my family

There's no way that this is real, man, it can't be[Outro]

Yeah, I can only tell you shit in pieces
