Touch The Sky

Socialburn

i don't know how long it takes all i know is that i can't wait much longer i don't know what it take all i can hope is the pain will only make us
stronger is it the air in my breath that makes you afraid that i'm about to say what i never should say
[chorus]
to someone just like you who always gets
confused between love and abuse and all the people you use or someone just like me who can't go to sleep without falling in love without playing for keeps
but we can touch the sky if we only try i don't know why the water breaks but the wind in my hair makes me feel like i'm someone stronger , i don't know
why i make mistakes but all i can hope is the pain will only make us stronger is it the air in my breath that makes you afraid that i'm about to say what
i never should say
[chorus]
[lead]
[chorus]
