Butt Trumpet

Never mind the painful cries
Just ignore her many lies
Let her rest when she passes out
While she's awake, let her shout
Quickly pour her another cup
Hold her hand when she shoots up
Fuck her when she needs a friend
The start the shit all over again
Don't fuck with my head, she said
Don't!
Hide the razorblades from the cop
Call the doctor when the bleeding won't stop
Kiss her, tell her she's okay
Then fuck around while she's away
Bring her home, give her a line
Now you got her feeling fine
Take a twenty from her purse
Always remember: business first!
Tell her you love her every day
Beat her when she tries to escape
Watch her as she loses weight
Always tell her she looks great
Don't fuck with my head, she said
No...
Never mind her desperate pleas
Lock the door and hide the keys
Tell her friends she's doing great
Watch her puke and masturbate
Lie her down when she starts to trip
Wipe the drool off of her lip
Wipe the tears off of her face
Fuck her as she starts to space
Does it fuck with your head she's dead?
