Sunrise

Shannon Hurley

Iâ€™ve got to reach you
Iâ€™ve got to see you
Let the light shine down on me
When the day breaks
And the sky is changing colors
Into something new
I want to see it with you

Sunrise
I want to see you again
Promise that youâ€™ll always stay
Sunrise
When the world is brand new
I want to see it with you

I want to touch you
I want to make you feel like youâ€™re the only one
In this world for me
I want to hold you
I want to make you see
That yesterday was long ago and
Soon it will be

Sunrise
I want to see you again
Promise that youâ€™ll always stay
Sunrise
When the world is brand new
I want to see it with you

â€˜Cause Iâ€™m not ready to let this end
We could say all the sorrys in the world
And still be friends
Thereâ€™s nothing I want more
Than flying home
Just to meet you

Sunrise..
