# Takin' It Out and Choppin' It Up

## The Movielife

I understand that you couldn't take it, couldn't take it anymore
I understand that you had your problems,
maybe more than I saw
But when you got on a plane that day
You lost all your privileges with me
Cause I heard so many things
Thought we parted, thought we parted peacefully
Then you got home,
opened your mouth and said all those stupid things
You even mouthed off to my friends
Here's what I'm sayingCome on, come on, shut up, shut up
I hope this song will shut you up
Come on, come on, shut up, shut upI appreciate all the work that,
all the work that you put in
And we care so much about you,
and hope that all your problems end
But all the foolish things you said
Do you know, we never said a thing
We held it in, so go take your medicine
or smoke yourself to sleep
Cause you got home, opened your mouth and said all those stupid things
You even mouthed off to my friends
Here's what I'm sayingCome on, come on, shut up, shut up
I hope this song will shut you up
Come on, come on, shut up, shut upAnd all the things I could say
The ammunition, the arsenal of words
And it's been so long now, all the questions
And out of respect, I kept my mouth shut!Come on, come on, shut up, shut up
I hope this song will shut you up
Come on, come on, shut up, shut upCome on, come on, shut up, shut up
Or I'll get Phil to shut you up
Come on, come on, shut up, shut up
