

# Army Of One (feat. Jeff Loomis)

## Annihilator

Just one big family  
Been around since the 1980's  
Old school, we're living in the past  
They said it would never last A few dozen of the strong survived  
On a mission, to keep it alive  
Hell bent, ignoring the trend  
While many pretend We stand united for something we believe in  
We are the army of one  
It's in our blood, this is our life  
It's why we're breathing  
We are the army of one Anthrax and Motorhead  
Exodus, Slayer, bang your head  
Dedication when the going got tough  
Was never enough Priest, Metallica, Megadeth  
Iron Maiden and Black Sabbath  
They tried to kill it, force it underground  
You can't take it down We stand united for something we believe in  
We are the army of one  
It's in our blood, this is our life  
It's why we're breathing  
We are the army of one Volume blasting, drums are crashing  
The guitar is screaming  
Never give it up, never giving up  
Right to the end Sacrificing, no compromising  
Is what we're bringing  
Never give it up, never giving up  
Fight to the end We stand united for something we believe in  
We are the army of one  
It's in our blood, this is our life  
It's why we're breathing  
We are the army of one, army of one We are united for something we believe in  
We are the army of one, we are the army of one  
It's in our blood, this is our life  
It's why we're breathing  
We are the army of one
