

# Melted Rope

## Wand

Time, pulling like a feather  
From your eyes  
Try, try to live it better  
Bide your time Desire, I am barely thinking  
In the dark  
And life, life is what you wanted  
It's what you are Shy, is anybody thinking  
From outside  
Close, watching people watching  
You go down Devour, melting every building  
You have been in  
So talk, talk about the lonely  
In each journey
