

# United (Live at the Seminole Hard Rock Arena)

## Judas Priest

Look around  
They're moving in  
Hold your ground  
When they begin We can do it  
We can do it and if they wanna they can try  
But they'll never get near  
Then they can get out of here Gonna keep on driving  
Never stop United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all So keep it up  
Don't give in  
Make a stand  
We're gonna win We can do it  
We can do it and if they wanna they can try  
But they'll never get near  
Then they can get out of here Gonna keep on driving  
Never stop United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all So keep it up United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all United, united, united we stand  
United we never shall fall  
United, united, united we stand  
United we stand one and all
