

Storms I Never See

Legacy Five

Lord, sometimes You call upon the wind and the waves to cease
And there are times when in the storm You calm my heart with peace
But only You will ever know what never comes my way
All because Your unseen hand has kept the storm at bay

So thank You, Lord, for safety when the winds begin to blow
And for the times You keep me when I never even know
In troubled stormy weather, You always shelter me
But Lord, Iâ€™m also grateful for the storms I never see

I believe that angel swords rebuke some deathly blows
When Satan comes in fury, and You simply tell him no
Lord every trial of my life is subject to Your will
These earthly eyes canâ€™t see the times you keep the waters still

So thank You, Lord, for safety when the winds begin to blow
And for the times You keep me when I never even know
In troubled stormy weather, You always shelter me
But Lord, Iâ€™m also grateful for the storms I never see

In troubled stormy weather, You always shelter me
But Lord, Iâ€™m also grateful for the storms I never see
For the storms I never see
