

# Jormundgand

## Helheim

In the black deeps of the ocean  
Under the perillous sea  
The ocean encompassing all the land  
There no man dares to sail  
Come brethren of Jormundgand  
Join in the final battle  
Come in the name of your father  
Loke awaits you in the warThe waves are rising as mountains  
They will murder each king and each trell  
Where they drown in the sea  
That is flowing over the land  
The twilight of the gods has conquered the earth  
Evil is saging in the flood of Jormundgands gush of waves  
And sounds like the sough of a hundred windsNow, no green can be seen  
Everything lies in a sea of ashes  
And all that once was beautiful  
Is now in ruins  
The earth is an open wound  
Which slowly fades  
No more years of life  
Everything is blackSlain by Thors hammer  
But he himself is killed  
Jormundgand, the lord of the deep  
The black flood of evil
