Everything I've Known

Korn

Away I see it's going down
Today hoping in time
Will bury all this pain
And will awake something insideWe pushed our buttons far inside
We tear our hearts out
(Then we fight)
Hey I know feels like I lost everything
That I've known I cannot survive alone
It feels like I lost everythin' that I've knownOur lives were good in everyway
Too late time after time
Our love just turned to hate
But we stayed by each others sideWe pushed our buttons far inside
We tear our hearts out
(Then we fight)
Hey I know feels like I lost everything
That I've known I cannot survive alone
It feels like I lost everything that I've knownI keep holding on I feel I'm where I belong
Everytime time we fight it feels so wrong
I feel so enslaved fuck my pride
Then we meet againWe pushed our buttons far inside
We tear our hearts out
(Then we fight)
Hey I know feels like I lost everything
That I've known I cannot survive alone
It feels like I lost everything that I've known
