

# Warriors (Unplugged & Masqueraded 2014)

## Freedom Call

We are warriors born from the light  
An army for freedom defenders of life  
At night, high up in the heavens we fight  
Faster than lightning we strike  
Like fires that rip through the night  
Surrounded by light  
Raging thunder in the skies  
Time has come to sacrifice  
We are warriors born from the light  
An army for freedom, defenders of life  
Warriors, euphoria will rise  
Returning from darkness we bury all lies  
The knights outcast and lost in the skies  
Returning to heaven denied  
Louder than thunder we ride  
We're ready to strike  
Call for us and you will survive  
Follow us to paradise  
We are warriors born from the light  
An army for freedom defenders of life  
Warriors, euphoria will rise  
Returning from darkness we bury all lies  
Here we are, the warriors of light  
Here we are, we came from the night  
Here we are, the warriors of light  
Here we are, euphoria will rise  
We are warriors born from the light  
An army for freedom defenders of life  
Warriors, euphoria will rise  
Returning from darkness we bury all lies  
We are warriors born from the light  
Warriors, euphoria will rise  
Returning from darkness we bury all lies
