I Love You

David Sneddon

You're like a little piece of heaven
You're lighting up an empty room
You're just a little bit of paper
But I I I
Love youYou're a smile that never fades
Even though mine sometimes do
And I know this is quite silly
But I I I
Love youAnd here is something strange
I know you'll never change
You'll keep me safe from losing you
'Cause I love you-oo-oo-oo-oo-oo-oo-ooh...You-oo-oo-oo-oo-oo-oo-ooh...I like to talk to you whenever
Don't need a reason - I don't feel blue
You're just keeping me together-er
And I I I
Love youWell, I know the real you will be smiling
Look at the sentimental fool
Holding a photograph like a diamond
But you know I love youAnd I'm losing time
I'm running out of time
So I hope this song will do-oo-ooh
To te-e-ell you
I love you...
