

Hey Darlin Darlin

Heart

Next please Hey darlin' darlin' gonna say it true
No one understands me like you do
I got the story when I was a child
It took me over and turned me wild
Only to make it true But when I'm alone all alone
No one home, the TV and the phone
Still say, "It will rain today"
Okay Hey darlin', darlin' help me understand
What went wrong with the peaceful plan, was it bold?
I ain't wishing for what used to be
I only hope that you and me can keep hold, unsold When you got no history, you're free
You sing and you believe so strong
You hold out fast and long, so long Now the latest is the greatest is their plan
But they didn't make us and they can't break us
Darlin', darlin' I don't think they can
Darlin', darlin' I don't think they can Hey darlin', darlin' how's it gonna be?
I love to hear what you sing to me
