

Ghost of Muskegon

Pop Evil

Days feeling hollow
Against my will they won't end into each other
And lies that I followed
Invisible now but the ground tells a story
This land that I remember
Keeps going on and on, on and on
If I could live forever
I'd bring it on and on, on and on I'm just a ghost that's starting to show
I've been on the wrong side searching for love
Could I've been wrong about everything?
I made more waves than the ocean
What nobody knows, nobody knows Lost, still I'm searching
Seek for the truth that will keep me together
I trip, through the ether
I'm never gone, gone, never gone, gone
If I could live forever
I'd bring it on and on, on and on I'm just a ghost that's starting to show
I've been on the wrong side searching for love
Could I be wrong about everything?
I made more waves than the ocean
What nobody knows, nobody knows You pick me up, bring me back down
Just let me breathe, before I drown
I'm in too deep, over my head
Am I alive or am I dead? I'm just a ghost nobody knows
I made more waves than the ocean I'm just a ghost that's starting to show
I've been on the wrong side searching for love
Could I be wrong about everything?
I made more waves than the ocean
What nobody knows, nobody knows
I made more waves than the ocean
What nobody knows, nobody knows
I made more waves than the ocean
What nobody knows, nobody knows
