We Go On

James Last

Written by Mikkel SE / H Rustan / TE Hermansen.
Another night has almost begun
Another day has finally gone
I wanna know is it you and me
I gotta feeling this is meant to be
Wherever the wind may blow
Whatever we face I know
We go on and on
You and me together
On and on just you and me
In my heart you belong
Love can last forever
Baby you're the one
We go on
Another day is turning to night
Another chance to make it alright
You wanna know if this is real
Let me tell you just the way I feel
Wherever the wind may blow
Whatever we face I know
We go on and on
You and me together

On and on just you and me
In my heart you belong
Love can last forever
Baby you're the one
We go on
We go on
Everything you say and do
Makes me fall for you
You know it's true baby
Everytime I'm all alone I carry on
Cos we go on
Everything you say and do
Really makes me fall for you
Anything you want me to, I'll do
Cos we go on, on and on
You and me together

On and on
Just you and me
In my heart you belong
Love can last forever
Baby you're the one
We go on
