

Rooftops

Lostprophets

When our time is up
When our lives are done
Will we say, we've had our fun
Will we make a mark this time
Will we always say we tried
We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out
All the love I've met
I have no regrets
If it all ends now, I'm set
Will we make a mark this time
Will we always say we tried
We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out
Standing on the rooftops

Wait until the bombs drop
This is all we got now
Scream until your heart stops
Never gonna regret
Watching every sunset
We'll, listen to your heartbeat
All the love that we found
Standing on the rooftops
Wait until the bombs drop
This is all we got now
Scream until your heart stops

Never gonna regret
Watching every sunset
We'll, listen to your heartbeat
All the love that we found
Scream your heart out
Scream your heart out
Scream your heart out
Scream your
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your
