You Guided Me

Nessi Gomes

Father you have taught me well
This is the life I love and storyâ€™s we tell
Father you have raised me well
This is the life I love
Living it now

You guide me. You guided me 3x
And you guided me
You guide me

For the night has come and Iâ€™ll fly with you
You have showed me love that I never knew
And the days will past and iâ€™ll move with you
And my open heart has been renewed
The love you posess runs through and through me
A big bowl of light energises me

So here I am, I am dancing with you
My pain is gone and your love is upon me
My lessons have been learnt fort hey have been hard
My inner strength has refound my heavy heart
And Iâ€™m learning to thrust you for all that you are
Iâ€™m where I need to be, guided on my path
So hold on to my hand and lead me the way
My mind can not sway me, music keeps me safe

Ohohohoh You guided me 4x

Mother you have taught me well
This is the live i love living I now
Father you have raised me well
This is the live I love living it now

You guide me. You guided me 3x
And you guided me
You guide me

So here I am, I am dancing with you
My pain is gone and your love is upon me
My lessons have been learnt fort hey have been hard

My inner strength has refound my heavy heart
My brothers my sisters you shine like the stars
This journey together bindsus to our hearts
Nonononononono

Ohohohoh 4x
Ohohohoh You guided me 4x
