Pretty Girl

Country Comfort

Oh ! Pretty Girl, I like you
Just can't find the words to say I really do
I'm admiring you, desiring you
Just loving you

Pretty Girl, just say you do
All the things you say you really like to do
You're admiring me, desiring me
Just loving you

Anytime, anyplace that I feel you
This feeling inside just grows and grows
Baby tell me that you love me, don't leave me
I know I can make you happy, just wait and see

Anytime, anywhere, baby just call me
Anytime, anywhere, you know I'll be there
Don't say that you love me, then leave me
I know we can stay together for a long time

*REPEAT
Loving you, loving you
Loving you
