

# Only For Me

## Boniface

Down the end of this barroom,  
Out of sight of the light in the window  
    His mind in his whiskey  
And his body in a folding chair  
    Far beyond repair  
    I enter his vision  
He watches me look for my seat  
    He makes his decision  
    And he stands to his feet  
Lord, it's a long way down  
    It happened to me  
    Wonderful sight  
    Only for me  
    Only for you  
It happened to be a light shining through  
    Form one who was lost and found  
    Just like me and you  
Old man says, "young man, my you're looking  
    Pretty green  
Like a stranger to this kind of place  
    Come sit at my table  
    Come and look into my face  
    I've got a story to tell."  
  
    "there was a father and son  
    But that was a long time ago  
    And when the time came to run  
        I just couldn't say no  
        So I left them behind."  
    It happened to me  
    Wonderful sight  
    Only for me  
    Only for you  
It happened to be a light shining through  
    Form one who was lost and found  
    Just like me and you  
    We have seen it before  
        In times of great sorrow  
That human compassion will flow from a well

That has long run dry  
It happened to me  
Wonderful sight  
Only for me  
Only for you  
It happened to be a light shining through  
Form one who was lost and found  
Just like me and you
