

# 10 Headed Goat Wizard

## La Sera

I couldn't have found you if I wasn't looking  
You keep your best hid away  
Double over in pain, it's just like the rain  
Rain don't come much round this way I think I know, yeah, but who can be certain  
Sometimes my thoughts slip away  
And I look to those days overgrown in haze  
Drink like a flower in the rain  
Look to those days, overgrown in haze  
Drink like a flower in the rain And I'll bow to the sun and salute everyone  
Kneel on a knee for I'm reverent of He  
He who won't take my, He who won't take my  
He who won't take my love away I couldn't have found you if i wasn't looking  
I'd give my best hit away  
And double the pain, you would like the rain  
Rain don't come much round this way  
Double the pain, you would like the rain  
Rain don't come much round this way And I'll bow to the sun and salute everyone  
Kneel on a knee for I'm reverent of He  
He who won't take my, He who won't take my  
He who won't take my love away And I'll blow Him a kiss and thank God I exist  
He who won't take my, He who won't take my  
He who won't take my love away
