

# Talk To Me Texas

Tracy Byrd

It's lonely out tonight down here in Georgia  
And the oldest friend I've got I met today  
The woman that I love just up and left me  
And the place I love is a thousand miles away  
Operator, hook me up to Houston  
Get me anybody on the phone  
Look there in your book and pick a number  
'Cause you can't be choosy when you're this alone  
Won't you talk to me, Texas? Let me hear that drawl  
I spent my last five dollars on this one long distance call  
Won't you talk to me, Texas? I got these homesick blues  
Tell me I can come on home to you  
I got this faded number in my wallet  
It's been in here a couple of years, I know  
I used to call it up when I was lonely  
Hey Lord, that woman sure could love me so  
I know by now she's probably changed her number  
With my luck, she probably changed her name  
If there's a chance in hell, I think I'll take it  
'Cause I'd love to hear that woman's voice again  
Won't you talk to me, Texas? Let me hear that drawl  
I spent my last five dollars on this one long distance call  
Won't you talk to me, Texas? I got these homesick blues  
Tell me I can come on home to you  
Won't you talk to me, Texas? I got these homesick blues  
Tell me I can come on home to you
