

Hey Joe (Daniel Johnston cover)

Sparklehorse

Hey Joe
C'mon Joe
Don't make that sad song
Any sadder than it already isHey Jack
Get back
Get yourself together
C'mon c'monI know you're thinking about your nervous laugh
I know exactly what you're thinking ofHey Sid
No matter what you did
It can work out
Work outNo matter how you feel
Right nowHey George
Do your chores
Don't feel soreI know it's a lot more
Than just being poorThere's a heaven and there's a star for you
There's a heaven and there's a star for you
There's a heaven and there's a star for you
There's a star for you
There's a star for you
There's a star for you
