

We Global

DJ Khaled

I would usually scream all over this intro

But I'mma let my friends tell you

We global, we global now, we made itWe done been around the world, seen a lot girls, girls

It started off local, now we global

And baby we da best, we da best

We da best, we da bestSee we do it for the hood

Make it understood, we bought that paper and we global

And baby we da best, we da best

We da best, we da best, we da bestBlast through, when I come through

All the pretty women wanna know what it do

Make moves, I break rules

And baby when I leave I want your friend to come tooWe rich nigga, money make the playa haters sit

Go figure, straight go getta

And when I tell you we da best, it's no lie, we live, it's televised

And if you feel me, put your hands in the sky

Let's make a oath that we never be broke againWe done been around the world, seen a lot girls, girls

It started off local, now we global

And baby we da best, we da best

We da best, we da bestSee we do it for the hood

Make it understood, we bought that paper and we global

And baby we da best, we da best

We da best, we da best, we da bestI'm second to none, they're descending upon

And baby we da best, we da best

We da best, we da best, we da bestI'm so independent, but the radio play 'em

Fuck 'em all night, and hit the streets in the a.m.
