Wonderland

I See Stars

You ask why I'm so blue.
I've been holding my breath for you...Whoa oh whoa ohHere's a little taste of regret
And for the record I am fine
And I tried to build the nerve
To put my feelings into words
But it never works (When nothing works)You ask why I'm so blue
I've been holding my breath for you
And I tried so many times
Just to get it through your mind
You know that it's sad but true
That it's too lateWhoa oh whoa oh
Whoa oh whoa whoa
Whoa oh whoa ohSituation overload
You give me reason to explode
Every time I wake
I will fall no more for you
I'll go away from you
But it never worksYou ask why I'm so blue
I've been holding my breath for you
And I tried so many times
Just to get it through your mind
You know that it's sad but true
That it's too late*I can't hold on any longer
I can't hold on any longer!**Suffocation is not love
Suffocation is not love!*
