Feel The Fire

Teddy Pendergrass

Something that you told me
Stayed in my head all night long
You wanted me to love you when you said, "Simply
Reach out and touch me, my love is in your hands"Feel me, I want to feel the fire
Why do you want to play with my emotion?And if I should lose your love
For any reason, any reason at all
Then just let my record show
I gave you all of my love I knowFeel me, I want to feel the fire
Feel me, I want to feel the fire
I don't want to play with your emotions
Give me love and all your devotion
I want to feel you, feel itAnd if I should lose your love
For any one reason, any reason at all
Then just let my record show
I gave you all the love, I knowFeel the fire, I want to feel you
I want to feel you
Feel the fire, I want to feel you
Teddy, Teddy, Teddy, don't you dare
Don't you dare try to play with my emotionsI want to give you all of my love
I want to give you all of my loveFeel the fire, feel the fire
Feel it, feel it, feel it, feel it
Come on, Teddy, TeddyI want to give you all of my love
I want to give you all of my love
I want to give you all of my, all of my, all of my
All of my ever [Incomprehensible] my lovingDon't you dare, I don't believe that
You'd dare to play with my emotions
You better believe it baby, I do
Give me all of your love baby
Give me all of your love, I give you all
