Tomorrow's World

Looper

You don't even know me You don't even care I've got something for you You must this beware Don't say that it's over I'm still a part of you Our love is eternal Hope in tomorrow's world Your life's getting closer Will you make the grade Slowly going nowhere Will you die afraid? Don't say that it's over I'm still a part of you Our love is eternal Hope in tomorrow's world Don't say that it's over I'm still a part of you Our love is eternal Hope in tomorrow's world Don't say that it's over I'm still a part of you Our love is eternal Hope in tomorrow's world Don't say that it's over I'm still a part of you Our love is eternal Hope in tomorrow's world Don't say that it's over I'm still a part of you Our love is eternal Hope in tomorrow's world
