

# American Dream

## Bad Religion

Hate my family, hate my school  
Speed limits and the golden rule  
Hate people who aren't what they seem  
More than anything else, American dream  
American dream will swallow you whole  
Bursting at the seam  
Gonna sweep you away, so enjoy it today  
Tomorrow you'll, old thus useless  
American dream, American dream  
American dream, that's ok, 'cause no one dare give you away  
(Aah aah aah aah)Hate your God, I hate my job, I hate hypocrites and common slob  
Hate people who aren't what they seem  
More than anything else, American dream  
Promise me today I'll have a Chevrolet, whitewalls on the side  
One boy, one girl, comfortable lies  
American dream, American dream  
American dream, that's ok, 'cause no one dare give you away  
(Aah aah aah aah)American dream  
(Blah!)
