Catch the Breeze

Slowdive

Feels like all the days are gone
Just catch the breeze, you know it had to fall
Rain washes, ways downAnd I, I want the world to pass
And I, I want the wind to fly
You can believe in everything
You can believe it allHey, are you feeling something new?
Just watch the rain it helps in all you do
The breeze, it blows, it blows everythingAnd I, I want the world to pass
And I, I want the sun to shine
You can believe in everything
You can believe it all
