

# Survive

## David Bowie

Oh my, naked eyes  
I should have kept you  
I should have tried  
I should have been more wiser  
Kind of guy  
I miss you  
Give me wings  
Give me space  
Give me money for a change of face  
Those noisy rooms and passion pants  
I loved you  
Where's the morning in my life?  
Where's the sense in stayin' right?  
Who said time is on my side?  
I've got ears and eyes and nothing in my life  
But I survive your naked eyes  
I'll survive  
You alone across the floor  
You and me and nothing more  
You're the great mistake I never made  
I never lied to you

I hated when you lied  
And I'll survive your naked eyes  
I'll survive  
People boys, all snowy white  
Razzle dazzle clubs every night  
Wished I had sent a Valentine  
I loved you  
I'll survive  
Naked eyes  
I'll survive  
I'll survive  
My naked eyes  
I'll survive  
I'll survive  
Naked eyes  
I'll survive  
I'll survive

I'll survive
